

Proposed Rule Amendment to §346.3. Early Childhood Intervention (ECI) Setting

Summary of Amendment: The amendment changes the requirement for review of the plan of care from at least every 30 days to at least every 60 days or concurrent with every visit if the child is seen at intervals greater than 60 days.

§346.3. Early Childhood Intervention (ECI) Setting.

(a) In the provision of early childhood services through the Early Childhood Intervention (ECI) program, the physical therapist conducts appropriate screenings, evaluations, and assessments to determine needed services to fulfill family-centered goals. When a child is determined by the PT to be eligible for physical therapy, the PT provides written recommendations to the Interdisciplinary Team as to the amount of specific services needed by the child.

(b) Subject to the provisions of §322.1 of this title (relating to Provision of Services), the PT implements physical therapy services in accordance with the recommendations accepted by the Interdisciplinary Team, as stated in the Individual Family Service Plan (IFSP).

(c) The types of services which require a referral from a qualified licensed healthcare practitioner include the provision of individualized specially designed instructions, direct physical modeling or hands-on demonstration of activities with a child who has been determined eligible to receive physical therapy. Additionally, a referral is required for services that include the direct provision of treatment and/or activities which are of such a nature that they are only conducted with the child by a physical therapist or physical therapist assistant.

(d) The physical therapist may provide general consultation or other program services to address child/family-centered issues.

(e) Evaluation and reevaluation in the early childhood intervention setting will be conducted in accordance with federal mandates under Part C of the Individuals with Disabilities Education Act (IDEA), 20 USC §1436, or when warranted by a change in the child's condition, and include onsite reexamination of the child. The Plan of Care (Individual Family Service Plan) must be reviewed by the PT at least every 60 days, or concurrent with every visit if the child is seen at intervals greater than 60 days, ~~every 30 days~~ to determine if revisions are necessary.
